# LEAFZERO™

The Only Gutter Cover Protection System You'll Ever Need!

## LEAFZERO™ Independent Testing Results

Leaf Entry/Blockage	Twig Entry/Blockage	Pine Needle Entry/Blockage
LEAFZERO™ - 100%	LEAFZERO™ - 99 to 100%	LEAFZERO™ - 97% (No waterflow reduction)
Popular competitors - 90%	Popular competitors - 75%	Popular competitors - 86%
Wire Mesh - 0%	Wire Mesh - 0%	Wire Mesh - 48%

**Open Water Flow** - 30.1 inches of water per hour (20 foot roof section)  
That's 2.5 times greater than the official rainfall world record (12 inches per hour)!

**Obstructed Water Flow** - 20.1 inches of water per hour when covered with wet leaves (20 foot section)  
Still 1.5 times greater than the world record.

**Clearing of Debris** - Most dry debris is cleared from surface with a 5mph breeze.  
When still wet, debris is removed with a 21mph wind speed.

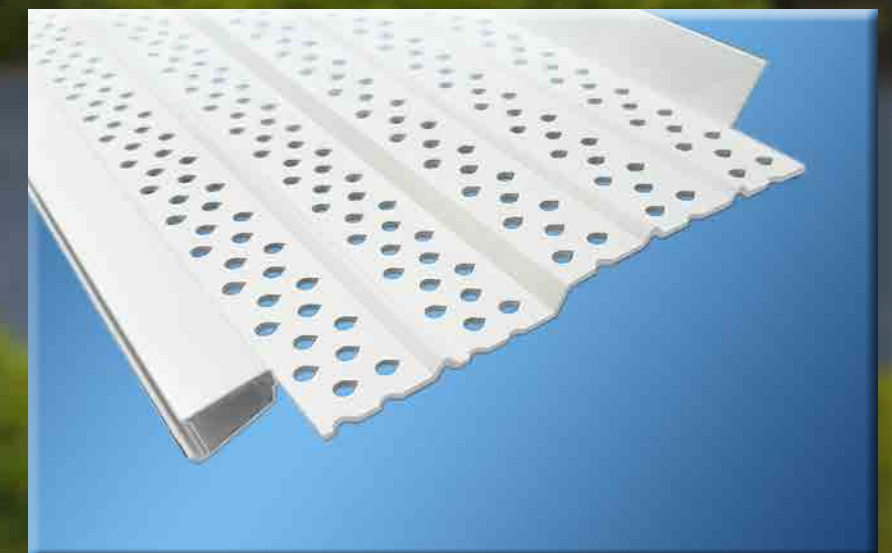

**Strength** - Excellent unmatched durability

## Comparison

Product	100% debris efficiency	Fits all roof slopes and materials. No gutter repositioning	Installed price	Virtually invisible from the ground	Never collapses	Pest resistant	Water control

**LEAFZERO™** brings real peace of mind to homeowners around the world who need a gutter protection system that really works the first time and every time. **LEAFZERO™** keeps debris out of gutters, allowing nothing but water to flow freely through the gutter system.

**LEAFZERO™** installs securely to the front lip of the gutter system with our quick secure lock snap system and lays along the fascia board which eliminates damage from clogged gutters, high winds, heavy snow and ice. The top quality extremely rigid PVC construction of **LEAFZERO™** is simply the best in the industry, and is guaranteed to resist damage from bugs, birds, squirrels, nuts, buckeyes, raccoons, hornets and bees. It will keep your gutters free and clear of debris, guaranteed!

**LEAFZERO™** has been carefully engineered and tested, and has proved to be the absolute best and only gutter cover protection system you'll ever need, hands down!

We back **LEAFZERO™** with a 10-year, no clog, limited warranty.

### Benefits of Having LEAFZERO™

- Puts an end to routine gutter cleaning, lowering maintenance cost and hassles
- No more dangerous trips up the ladder
- Never clean your gutters again, guaranteed!

### LEAFZERO™ Facts

- Comes in 3 foot lengths for easy transport and installation
- Does not go under the shingles or the roof which eliminates any possible damage to either
- Does not void your roof warranty
- Once installed, it will never have to be removed again  
It becomes a vital part of your gutter system
- Will add years of life to your gutter system
- Only water will enter — *absolutely no debris*
- Gutter will remain free-flowing for water
- The water capacity greatly exceeds U.S. record rainfall amounts and will take on any amount of rainfall that nature can give, guaranteed
- Manufactured with the absolute best quality exterior grade PVC that is sure to withstand the elements
- Performs well with any roof material or roof pitch
- Filtration system keeps working 100% even when covered by wet leaves and debris
- Raised profile for those stubborn hangers
- Raindrop hole for better water flow
- **LEAFZERO™** is installed on top of K-Style gutters

### The 3-Point Ridge System

- Allows for easy installation
- Allows for expansion and contraction associated with temperature changes
- Allows for air to travel through the gutter system to help keep out mold and mildew, and to help any debris on top of the gutter cover system blow off more easily
- The points keep debris from laying flat on the gutter cover system
- Allows for easy alignment when installing, ensuring that you keep a straight line.
- Helps water control by ensuring that when water hits a ridge point it is diverted into the gutter system.
- Adds superior strength to the system
